Chautauqua Program Opens This Afternoon

With fair skies and an enthusiastic audience the second annual Chautauqua program was opened at 2:30 this afternoon in the big canvas tent on the Iowa school building grounds under the most auspicious circumstances. The Ziegler-Howe Orchestral Club of four young men was first on the program and gave a pleasing and entertaining musical prelude. Miss May Jones occupied the platform the remainder of the afternoon with her Indian Folk-Lore stories, dressed in the costume.

The big tent arrived at the North Charleroi station and was quickly brought here in trucks and set up by a squad of trained men under the direction of Superintendent H. B. Richardson, and William Mickey, Chief of the crew. They had as their assistants W. F. Donohue and H. F. Dobbin. Scout Master C. F. Hargrave was on the grounds early this morning and met the local Scouts, assisting them in the erection of their refreshment stand. He called the meeting off for the morning in order that everything should be in readiness for this afternoon. He gave orders that all Scouts be on hand tomorrow morning at 9 o'clock.

The opening evening program for tonight promises to be one of the best of the week and will no doubt attract a large crowd. Mr. William Rainey Bennett will be the principal attraction and will lecture on "The Man Who Can." Mr. Bennett is recognized as one of the leading lecturers on the Chautauqua platform and his lecture can not be praised too highly. The Ziegler-Howe Orchestral Club will furnish the musical prelude for the evening beginning promptly at 7:30.

Following is the program for Tuesday.

Morning, 9:00—Boy Scouts.
Chhildren's Hour, 10:00 o'clock—Japanese Folk-Lore Stories (In Costume.)
Afternoon— Musical Prelude, 2:30, The Dunbar Singing Band.
Lecture—"A Man's Duty to His Community," Mr. Grosvenor Dawe.
Evening, 9:15—Grand Musical Entertainment, The Dunbar Singing Band.

Will Give Picnic To Poor Children

Miss Marie Watson and Community Nurse Miss Kelly are arranging to give the poor children of the town a picnic some time during the month of August. No definite plans have been made as yet but several of the churches have signified their intention of donating money towards the event and it is thought that local truck owners will donate the use of their machines for the day. The children will get the opportunity to spend the day in the country and with liberal donations it is thought that there will plenty of good things for them to eat. Any lodge or other organization or individual who wishes to make a donation to this cause should communicate with Miss Watson or Miss Kelly.

Children Will Give Demonstration

The children of the Linden avenue playground, under the supervision of Miss Anna Currie, will have an exhibition of their work done on the playgrounds, at the Linden avenue school building Wednesday, Thursday and Friday

The public is invited to inspect the work which will be on display during the day.

American Vessel Was Torpedoed

(Special to the Daily Independent)

The American steamship Leelanaw carrying a cargo of flax and flying the United States flag was sent to the bottom of the ocean at an early hour this morning by a German submarine. The boat was bound for Ireland and was struck by a torpedo from the submarine near the coast of Scotland. The crew was saved.

Republicans Have Big Registration

Saturday 172 out of a total of 186 election precincts in the county had been heard from and the reports indicated surprising gains in the Republican party. They also show a falling off in the Socialists and the almost complete collapse of the Bull Moose party. In the 172 districts in which the assessors have turned their books over to the County Commissioners a total of 317 voters have registered as members of the Washington party:

A compilation of the party preference as recorded by the assessors in the 172 districts gives these figures: Republican, 25,043; Democrat, 12,074; Socialists, 2,638; Prohibition, 756. and the Washington or Bull Moosers, 317. The non-partisan vote had not been compiled Friday evening. Forty thousand eight hundred and eighty-six voters in the 172 precincts returned have expressed their preferences and when the returns from the remaining 14 precincts come in and are added to these totals it will be found that the regisration will exceed 30,000, and it may run over 31,000.

Mohawks Won From Charleroi

The Mohawks of this city traveled to Charleroi and defeated the strong Swickey A. C. by the score of 10 to 5. Dessent was on the mound for the Mohawks pitched a good game and good infield work helped him out of several holes, especially Bickerton at second and O'Mally at short. Wagner started the game for the Swickey's, who several weeks ago held the Mohawks to a 2—1 score, was knocked out of the box in the seventh inning.

The batting honors go to Mullen of the Mohawks having a two bagger a three bagger and two singles in as many times at bat. The feature of the game was the home run made by O'Mally.

Next Saturday the Mohawks will play the Oriole A. C. of Charleroi at Page park.

Mrs. Joseph Smith, widow of the murdered farmer slain on the threshold of his home along the Webster-Monessen road, Saturday identified Charles Douglas, a negro captured at Fairmont, W. Va., Thursday morning as the man who had on June 21, last shot her husband in the neck and then attacked her. Accompanied by trooper McLaughlin attached to a squad of state police located at Greensburg, Mrs. Smith arrived on the noon train and went immediately to the jail where she was taken to the corridor and Douglas was brought forward.

Her identification was positive and without hesitation. Douglas signified his willingness to return to Westmoreland county for trial.

Douglas was brought to Greensburgh and will stand trial at the August term of court for murder. He has already served three terms in state penitentiaries.

Narrow Escape For Local Man

George Campbell an employee of the Pittsburgh Steel company had a miraculous escape from death early Saturday morning when at work about a barb wire spindle. The young man was working on piece work and attempted to make time by throwing a roll of wire on a spindle moving at the rate of 500 revolutions per minute. In some manner his clothes caught on the spindle and in an instant he was thrown to the floor. He fell unconscious directly under the wheel and at each turn he was hit on the head and arm.

It was fully a minute before the machinery could be stopped and in this time he was struck 500 times on the head and arms. Medical attention was quickly secured and he was rushed to the Memorial hospital at Monongahela under the care of three physicians. He is suffering great pain from lacerations of the head and arms but his recovery is probable.

Mad Dog Scare

Residents of Second and Reed avenue were given a scare yesterday afternoon when a small dog belonging to Charles Searson residing at the corner of Second and Reed avenue, suddenly went mad. With women and children rushing to their homes in fright William Mitchell appeared on the scene with a revolver and after several shots killed the canine. Thinking perhaps that the dog was not dead he went for a shot gun but when he returned the animal was dead.

Few Prisoners At Police Court

Despite the fact that Saturday was a pay day at the local mills, everything was rather quiet in police circles over Sunday and but fifteen arrest were made. Eight of these were foreigners celebrating in a house in an alley between Third and Fourth streets. The participants were notified several times to quiet down but evidently the booze had got the best of them and at midnight the officers went to the house and placed them under arrest. They will be given a hearing some time today and will probably have to pay for their fun. John Huriscki had a bill of $17 to pay this morning as the result of a fight in which he participated. John cut his opponent and had a doctor bill to pay in addition to a $10. fine and costs. He wanted pay for his soiled clothes but was told ot bring the case before a squire. Quite a number of the prisoners were broke this morning and will be put to work on the streets.

Servant Girl Is Charged With Theft Of Jewelry

Pauline Minkovitch, a pretty 16 year old Slavish girl is lodged in the local lockup charged with the theft of a number of articles from the home of Marko Valato at the corner of Lewis avenue in Wireton. For some time Mr. Valato has noticed that the cash register has been short in the evening and suspicion was turned to the girl. She was kept under watch as Mr. Valato worked during the day he was unable to get a good clew. Sunday, however, Mrs. Valato went to her room to get a locket and chain to wear to church, when she discovered that it was missing along with a number of other articles.

The girl was seen leaving the room in a hurry when the loss of the articles was discovered and was in the act of closing a drawer when Mrs. Valato demanded that the drawer be opened and that the locket and chain be returned.

A constable was then called to the house to place the girl under arrest and when she was searched a ladies' and a man's watch, two bracelets and two rings were found concealed in her stockings. She, however denied the theft stating that a friend had sold the jewelry to her. She will be given a hearing before a Justice of the Peace today.

Ardmore Defeats Local Independents

In a comedy of errors, wild throws and bone headed plays the local Independent base ball team was defeated by the Ardmore club at Page grounds Saturday by the score of 8 to 7. Though the locals outhit the visitors two to one, stupid base running and errors gave the Ardmore team a lead that could not be overcome. Brightwell started on the mound for Monesen but was relieved in the third by Hogg. The Ardmore pitcher was touched up rather lively and he to was removed in the following inning.

In the seventh inning with two men out the Independents made a vain attempt to overcome the four run lead of the visitors but after three men had crossed the plate on pretty singles the scoring was ended. and they went out in one, two, three order in the following two innings. Tomorrow evening the fast Fredericks-town team will play a twilight game with the locals.

A Little Hero

The other day Vincent Moyer, a boy of ten years, and his sister not much older, were picking blackberries in Delaware county, Pennsylvania This peaceful summer scene was rudely marred by the appearance of a young negro man who burst out of the bushes, thrust the boy aside and began to drag the shrieking girl away. Although so young and so helpless, the boy did not submit. He remembered that his mother had told him it was the duty of men to protect women and that he must always "take care" of his sister. And he remembered the story of the chivalry of King Arthur's knights which he had lately read. Regardless of what he might suffer, he fiercely attacked and was so successful that the negro was compelled to hold the struggling girl with his left hand while he fought the boy with his right Two of the little fellow's teeth were knocked out and he was felled to the ground where he lay a few moments half stunned Then, bruised and bleeding, he dragged himself to his feet, ran to the road, calling frantically, and brought back efficient help—in time. The girl was rescued and soon the fleeing negro was caught and jailed.

But for the hideous character of the attempted crime, this story of a little hero—as brave and truly devoted in his own way as any of the knights of chivalry—would deserve a conspicuous place in a standard school reader where it could continue to be an inspiration to the boys of America.

Nature's Bounty

A special dispensation of providence, in this year of man-made scarcity and distress in so large a part of the world, is suggested not only by our record-breaking crops now ripening toward the harvest but by the unprecedented yield of the oil wells of the Unitd States. For 1914 is announced the unparalled oil yield of 290,312,535 barrels. From the consumers point of view there is further cause for thankfulness in the fact that within less than two years the price has been reduced from ninety-five cents to eighty-one cents a barrel, and even the producer cannot complain because abundnace is cheaper by the unit when he has the greater bulk to dispose of.

Again we are reminded of how bountiful nature comes to the rescue, repairing the ravages for which men are responsible. Man may blast a great part of the world with desolating war, but nature is never found wanting, everywhere rewarding intelligence and industry with her inexhaustible riches. Although local disturbance and temporary scarcity at points are inevitable, with normal conditions for the most part prevailing, with enlightened industry unceasing, joined with a satisfactory development of methods of distribution, nature will never fail to meet all the needs of man, her most favored child.

Making Clothes Fireproof.

Apropos of fire prevention a doctor in New York told how to make clothes fireproof. They should, he said, be dipped in a solution of ammonium phosphate, one pound to a gallon of cold water. Ammonium phosphate costs only 25 cents a pound, he said. The doctor took an eight inch strip of ordinary cotton gauze, equivalent to the material in the Indian and cowboy suits so popular among children, and ignited it. It was wholly consumed within four seconds Then he took a similar strip, dipped it in the ammonium phosphate solution, dried it with an electric fan and held it in a flame for thirty seconds, but it did not burn

"Families should get this solution, keep it in their houses and dip the whole family washing in it," said the doctor. "It would cost about 15 cents a week for an entire family."—New York World.

Gave Napoleon Advice.

Napoleon Bonaparte had no more devoted and disinterested friend than Gespard Monge, the illustrious academician and founder of L Ecole Polytechnique On one occasion he demonstrated his regard by giving the great genetal some unwelcome advice

Napoleon announced his intention of reading a paper to the French institute Monge frankly expressed his disapproval of the plan

"You have not time to write a good paper, and you cannot afford to write a poor one The eyes of the world are upon you Whatever you write will be severely criticised"

Napoleon was astonished and indignant at this plain speaking, but he never wrote the paper

Women Jurors

"Do women have to sit on juries if they vote?" Dr. Anna Howard Shaw, president of the national suffragists, was recently asked.

"Not necessarily," said Dr. Shaw, "but I have seen a lot of juries which needed to have someone sit on them, and I have known women who have had to stand up at most difficult and disagreeable employments who would be glad to sit on juries and receive about double the price they get by standing. And these men and women who prey upon the virtue of girlhood and boyhood would rather face Satan himself than a jury of mothers.

"Yes, we need women on some juries."

PENNA. WOMEN FEEL FIT FOR CIVIC DUTY

Ask Why They Are Not As Well Able to Vote As Western Women.

Several years ago, before equal suffrage had become a live issue in Pennsylvania, a Western woman who was visiting in Bedford county was the center of attention at a woman's gathering there because she had voted at the last election in her home State. The Pennsylvania women wanted to know all about voting and there was much discussion.

One little woman, whose bent body and work-worn hands testified to the years of her faithful service in the equal partnership of farm life, showed the greatest interest but did not say a word.

"What do you think about it, Mrs. Smith?" finally asked Miss Edith Stuckey, who afterwards became county chairman of the suffrage organization in that section.

"Humph," answered Mrs. Smith, vigorously rocking in her arm chair, "if those women can vote I want to know why I can't."

Mrs. Smith's terse sentence expressed the position of Pennsylvania's womanhood so well that a woman suffrage association was organized on the spot and these Bedford women determined to find out why they were not considered just as well able to vote as were their sisters in the West.

"We knew that the women of twelve States of our Union had answered all the possible arguments and objections in regard to equal suffrage by their intelligent and successful performance of their full civic duties," said Miss Stuckey recently, in describing the start of the suffrage movement in her county. "We realized that the time had passed when this Nation could be content to limit liberty and equality for one-half its adult population by their location on the map. The women of Pennsylvania are, in intelligence and training, as well fitted to assume their civic duties as any women on earth. When our men go to the polls this November 2 we want them to remember this and vote 'Yes' on the suffrage amendment."

John Williams, president of the Amalgamated Association of Iron, Steel and Tinworkers of the Pittsburgh district, says: "Any official or member of Pennsylvania labor organizations who does not work and vote for woman suffrage from now until election day is untrue to organized labor."

WHY?

Why should women be taxed to pay for the expenses of elections at which only men are allowed to vote?

LOS ANGELES HAS A "CITY MOTHER"

City Fathers Place Her In Charge of Bureau For Protection of Girls.

Los Angeles has an official city mother and is the first city in the world to possess such an officer. Mrs. Aletha Gilbert has been elected to the place by the City Council and police commission, with the approval of the new chief of police. She is surrounded by an advisory board of women and is at the head of what is called the "City Mothers' Bureau."

The plan is to make the bureau a haven for troubled mothers and erring or ignorant girls who need advice or police protection. The bureau is strictly confidential and does away with women having to face a morbid, curious crowd in court and the fear of publicity.

First offenses are reported to the home instead of the court. The conditions of wayward girls are bettered by placing them in private homes. Employment is found for those who wish it.

The bureau has already arranged a series of Saturday night dances, and is planning for a municipal hall to be given up to free public amusement. A polytechnic school for girls is to be established as soon as the money is forthcoming.

THE PIVOTAL QUESTION

Said Joe to Sam in fierce debate,
Upon the woman question,
"You've answered well all other points,
Now here's my last suggestion:
When woman goes to cast her vote—
Some miles away, it may be—
Who, then, I ask, will stay at home
To rock and tend the baby?"

Said Sam, "I own you've made my case
Appear a little breezy.
Suppose you put this question by,
And ask me something easy!
Yet, since the matter seems to turn
On this, as on its axis,
Just get the one who rocked it when
She went to pay her taxes!"

"Mother may I go out to vote?"
"No, my darling daughter.
Some kind man will do that for us,
That is, if he feels he oughter."

Benjamin Franklin said: "Those who have no voice nor vote in the electing of representatives do not enjoy liberty, but are absolutely enslaved to those who have votes."

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

If the reader has a "bad back" or any kidney ills and is looking for an effective kidney medicine, better depend on the remedy endorsed by people you know. Doan's Kidney Pills have given great satisfaction in such cases. Monessen citizens testify to this. Here is a case of it:

H. R. Wilbur, 131 McKee avenue, Monessen, says: "I contracted a heavy cold which affected my kidneys. My back was sore and lame all the time and I had to have help to turn in bed. My whole body was like a board. I often had to have somebody dress me. Shooting pains darted through my body and I could not do my work. My body became bloated. The secretions were profuse in passage and contained sediment. I had dizzy spells and hot flashes, and I was miserable in every way. I doctored for years but didn't improve. The first box of Doan's Kidney Pills relieved me and two boxes practically cured me. Now and then I take Doan's Kidney Pills as a tonic, and give them credit for keeping me well."
